
[Train Fever Update Build 4334 \(Files Only\) Game Download](#)

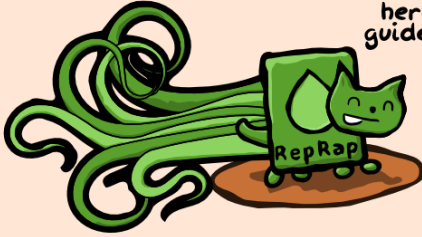

So you want to build a RepRap?

First, congratulations on your choice to build THE most cutting edge self replicating 3D printer available! Cutting edge means RepRap is evolving so incredibly fast it's near impossible to keep all documentation updated.

ALPHA DRAFT

But don't worry, I'm here to guide you!

Yay!

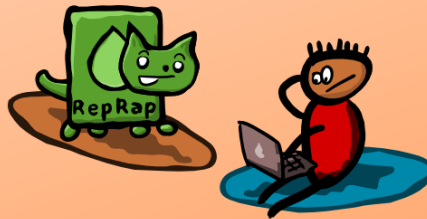

First go to reprap.org/wiki/IRC and follow the instructions

When you are connected to #reprap IRC, write: *hello world?* in the channel

kthx is our friendly bot and we update him with the most current recommendations and experiences from the RepRap community <3

Just ask, and he'll answer! Try these for a start: *faq?* *hotend?* *electronics?*

If you have further questions, just ask, and we'll do our best to answer

When you're up and running, feel free to stick around to chat and help other newcomers

Welcome to the community!
